

General Instructions for APCD Application Forms

All sources must complete form 100A – *Administrative Information*.

- Minor sources should then complete form 100B, the 200-series and 300-series forms appropriate for their facility.
- FEDOOPs (major sources taking a limit to remain non-Title V) should complete forms:
 - 100B – Emission Unit Definition
 - 100C – Emission Data
 - 100E – Potential to Emit
 - 100F – Plantwide Emission Summary
 - 100H – Applicable Requirements
 - 100J – Compliance Monitoring
 - Any 300-series forms needed to define control devices in use
 - Any 200-series forms needed to fully describe processes
 - 100M – Risk Management Plan (if applicable)
 - 100K – Compliance Status

The District may ask for additional forms or information after reviewing the submission.

- Title V sources must complete forms:
 - 100B – Emission Unit Definition
 - 100C – Emission Data
 - 100D – Stack Data
 - 100E – Potential to Emit
 - 100F – Plantwide Emission Summary (Potentials only)
 - 100G – Alternative Operating Scenarios
 - 100H – Applicable Requirements
 - 100J – Compliance Monitoring
 - 100L – Compliance Schedule (only if there are out-of-compliance activities)
 - Any 300-series forms needed to define control devices in use
 - Any 200-series forms needed to fully describe processes
 - 100M – Risk Management Plan (if applicable)
 - 100N – Episode Action Plan
 - 100K – Compliance Status
 - Plot Plan (no form) – a drawing of the layout of the facility

The District may ask for additional forms or information after reviewing the submission.

If form 100L was required, periodic progress reports on form 900B – Certified Progress Report will be required.
